SPC PANELS

FibroTech SPC panels are made from a composite mixture of calcium carbonate (stone powder) and PVC-based polymers (Stone Plastic Composite).

The material provides high strength, dimensional stability and water resistance, making the panels suitable for both private and professional environments, including wet areas.

IMPORTANT REQUIREMENTS

When installing in wet areas, the room must be waterproofed in accordance with applicable regulations before installation.

CHARACTERISTICS

- Material: Calcium carbonate (stone powder) and PVC-based polymers
- Surface: UV-coated, non-porous PVC
- Bacteria-resistant (Reduces bacteria by 90.7% (E. coli) og 97.6% (S. aureus)).
- Water-resistant and suitable for wet areas
- Stain-resistant
- Easy to clean and low maintenance
- Dimensionally stable - retains dimensions over time
- Made from recyclable materials
- Simple and easy installation

DB no.	Product	Dimensions	Color	Quantity per pallet	Weight per panel
